(1008553)

Latin

A Auris externa

- 1 Auricula
- 2 Meatus acusticus externus
- 3 Membrana tympanica
- 4 Anulus fibrocartilagineus

B Auris media

- 5 Cavum tympani
- 6 Malleus
 - a Caput mallei
 - b Collum mallei
 - c Manubrium mallei
- 7 Incus
 - a Corpus incudis
 - b Crus breve
 - c Crus longum
 - d Processus lenticularis
- 8 Stapes
 - a Caput stapedis
 - b Crus anterior
 - c Crus posterior
 - d Basis stapedis
- 9 Tuba auditiva
 - a Ostium tympanicum tubae auditivae
- 10 Recessus epitympanicus

C Auris interna

- 11 Vestibulum
- 12 Fenestra vestibuli
- 13 Fenestra cochleae
- 14 Canalis semicircularis lateralis
- 15 Canalis semicircularis anterior
- 16 Canalis semicircularis posterior
- 17 Cochlea
- 18 Nervus vestibulocochlearis [VIII]
- 19 Meatus acusticus internus
- 20 Os temporale
- 21 Glandula parotidea
- 22 A. carotis interna

Organ of hearing

English

A External Ear

- 1 Auricle
- 2 External acoustic meatus
- 3 Tympanic membrane
- 4 Fibrocartilaginous ring

B Middle Ear

- 5 Tympanic cavity
- 6 Malleus
 - a Head of malleus
 - b Neck of malleus
 - c Handle of malleus
- 7 Incus
 - a Body of incus
 - b Short limb
 - c Long limb
 - d Lenticular process
- 8 Stapes
 - a Head of stapes
 - b Anterior limb
 - c Posterior limb
 - d Base of stapes
- 9 Pharyngotympanic tube
 - a Tympanic opening
- 10 Epitympanic recess

C Internal Ear

- 11 Vestibule
- 12 Oval window
- 13 Round window
- 14 Lateral semicircular canal
- 15 Anterior semicircular canal
- 16 Posterior semicircular canal
- 17 Cochlea
- 18 Vestibulocochlear nerve [VIII]
- 19 Internal acoustic meatus
- 20 Temporale bone
- 21 Parotid gland
- 22 Internal carotid artery
